## EXPERIENCE

---

### DISE Ltd

Co-Founder, developer & designer January 2014 - present

- Co-founded Dise with a small team of 5 which specialises in high quality mobile & web development.
- Developed a game called Bricks which was featured in numerous media-outlets such as MTV, the Nottingham Post newspaper and an interview at BBC radio and was responsible for design and music.
- Built the Nottingham Economics & Finance Society app. I was responsible for building the REST API and a custom Content Management System.
- Collaboratively Developed the University of Nottingham week one app in partnership with the University of Nottingham student union intended to improve the week one experience for freshers starting university. I integrated twitter feeds and the University of Nottingham hopper bus timetable API to serve students a portable version of the bus times.
- Received over 20k downloads in total

### Mixed Reality Lab Fast Grant

Sole Web developer SUMMER 2014

- Used standard web technologies in addition to AngularJS to build a one page website populated by a dataset with filter tools which can be customised with values read from a config file.
- Reiterated over various UI/UX design concepts resulting a much better experience.
- Gained experience working independently as I learnt to build and deliver readily upon request.

### AudioHunt

Lead iOS Developer MAY 2014 - present

- Currently leading the development of an iOS social music sharing app, aiming to reinvent the way we access and share music.
- Heavily involved in the both the design & implementation of the application.
- Used the Soundcloud SDK to facilitate access to its API for music content

## EDUCATION

---
