

EXPERIENCE

DISE Ltd

Co-Founder, developer & designer

JANUARY 2014 - present

- Co-founded Dise, a small team of 5 which specialises in high quality mobile & web development. All products have a total of 20k downloads.
- Built the Nottingham Economics & Finance Society app and was responsible for building the REST API and a custom Content Management System. - bit.ly/NefsUoN
- Collaboratively Developed the University of Nottingham week one app in partnership with the University of Nottingham student union intended to improve the week one experience for freshers starting university. I integrated both twitter feeds and bus times using an unofficial API I built for the University of Nottingham hopper bus timetable to serve students a portable version of the bus times. - bit.ly/uonwelcomeapp

Mixed Reality Lab Fast Grant

Sole Web developer

SUMMER 2014

- Used standard web technologies in addition to AngularJS to build a one page website populated by a dataset with filter tools which can be customised with values read from a config file.
- Reiterated over various UI/UX design concepts resulting a much better experience.
- Gained experience working independently as I learnt to build and deliver readily upon request.

AudioHunt

Lead iOS Developer

SUMMER 2014 - present

- Currently leading the development of an iOS social music sharing app, aiming to reinvent the way we access and share music.
- Heavily involved in the both the design & implementation
- Used the Soundcloud SDK to facilitate access to its API for music content

Mumble (gomumble.co)

Lead Web Developer & Product Designer

NOVEMBER 2014 - present

- Built mumble, a localised feed app which enables anonymous localised communication.
- Designed all platforms which included web,iOS & Android.
- Responsible for leading a team small web development team in building our web platform.
- Built a flagging/filtering system which connected to a backend service that lets an admin review or delete content from the database thus resulting in a improved experience of managing content.
